To Whom It May Concern

Re: Testimonial for the Noble Heart Foundation

I am writing to acknowledge and reiterate the invaluable support that the Noble Heart Foundation has given to our campaigns and productions over the past several years.

Our first collaboration took place in 2019, when we created the first-ever global campaign promoting Romania on BBC World News. As the largest donor to the campaign, the Noble Heart Foundation played a decisive role in enabling us to reach our fundraising target. Its support allowed us to showcase the very best of Romania to international audiences for an entire month during the spring of 2019, achieving record levels of audience interest and viewership.

Since then, the Noble Heart Foundation has continued to help us promote and celebrate Romania through film. The Foundation contributed to the production of Wild Danube, a feature-length documentary portraying a year in the life of 'Europe's Amazon' and exploring the complex relationship between people and the natural world.

The Foundation has also supported the production of Seasons 2 and 3 of Flavours of Romania, both of which are currently available on Netflix in Romania and the Republic of Moldova.

Without the support of the Noble Heart Foundation, many of our projects would not have been possible. Its contribution has been vital to our continued success in celebrating, promoting and protecting Romania; encouraging tourism; challenging international preconceptions; and building a more positive image of the country.

We are immensely grateful to the Noble Heart Foundation for its generosity, trust and continued support over the years. We sincerely hope that we will continue working together to promote and protect our wild, beautiful and unique country.

Yours faithfully,

Charlie Ottley
